

RATCHET ELECTRICIAN CABLE CUTTER 1000V

EGA Master insulated tools comply with IEC 60900 international standard, each one of the pieces being tested at 10,000V (10 times the voltage we certify). They are also tested rigorously according to what the norms establishes: adherence test, impact test, flame propagation test and dielectric penetration test.

 **1.000V**
IEC 60900

MAIN APPLICATION FIELDS

Electrical installation	High Voltage networks	Chemical Industry
Power Plants	Low Voltage networks	Fire-fighters
Electric Stations and substations	Telecommunications	Lighting installation and repair

CAUTION

- 1 Don't ever use tools under voltage if they present pores, fissures, encrusted elements or if the white insulation layer is visible.
- 2 Insulating floors and safety shoes are recommended to work under voltage.
- 3 Avoid contact with water while working under voltage.
- 4 Do not ever touch directly any item that may be under voltage. Use a voltage tester to check first.

RATCHET ELECTRICIAN CABLE CUTTER 1000V

EGA Master manufactures a wide range of tools for electricians. The 1000V insulated ratchet electrician cable cutter is an indispensable tool for the cutting of cables of up to 52mm diameter, guaranteeing a clean cut without deformations.

1. The mechanism of the ratchet guarantees a progressive and effective cut, without any kind of deformation.

2. It has a locking system when it is in the closed position.

3. Suitable for use with copper and aluminum cables of up to 52mm.

RATCHET ELECTRICIAN CABLE CUTTER

COD	L mm	mm	CU	AL	gr.

RATCHET ELECTRICIAN CABLE CUTTER

TECHNICAL SPECIFICATIONS

MATERIAL	Body	Special steel
	Handles	PVC
HARDNESS	Cutting edges	50-55 HRc
FINISHING	Body	Black colour
	Handles	Orange
