

SOCKETS 3/8"

1000V

EGA Master insulated tools comply with IEC 60900 international standard, each one of the pieces being tested at 10,000V (10 times the voltage we certify). They are also tested rigorously according to what the norms establishes: adherence test, impact test, flame propagation test and dielectric penetration test.

MAIN APPLICATION FIELDS

Electrical installation	High Voltage networks	Electric maintenance
Power Plants	Low Voltage networks	Fire-fighters
Electric Stations and substations	Telecommunications	Lighting installation and repair

CAUTION

- 1 Don't ever use tools under voltage if they present pores, fissures, encrusted elements or if the white insulation layer is visible.
- 2 **Insulating floors and safety shoes** are recommended to work under voltage.
- 3 **Avoid contact with water** while working under voltage.
- 4 **Do not ever touch directly any item that may be under voltage.** Use a voltage tester to check first.

SOCKETS 3/8"

1000V

EGA Master offers a wide range of 1000V insulated sockets, both short range and long series offering in turn a large number of additional items, such as adapters, articulated handles, extensions, ratchets, etc.

There are ranges of 1/4 ", 3/8" and 1/2 "square driver for the most demanding professionals.

both in mm and inches

1. Sockets with 6 and 12 edges both in mm and in inches to suit user's needs.

2. Made of chrome-vanadium steel, designed to support high torques with minimum wear out, providing greater durability.

3. The **insulation** provides maximum adherence and safety against unforeseen circumstances.

4. Un-erasable laser marking.
