

# PINCERS 1000V

EGA Master insulated tools comply with IEC 60900 international standard, each one of the pieces being tested at 10,000V (10 times the voltage we certify). They are also tested rigorously according to what the norms establishes: adherence test, impact test, flame propagation test and dielectric penetration test.

 **1.000V**

## MAIN APPLICATION FIELDS

Electrical installation	High Voltage networks	Electric maintenance
Power Plants	Low Voltage networks	Fire-fighters
Electric Stations and substations	Telecommunications	Lighting installation and repair

## CAUTION

- 1 Don't ever use tools under voltage if they present pores, fissures, encrusted elements or if the white insulation layer is visible.
- 2 Insulating floors and safety shoes are recommended to work under voltage.
- 3 Avoid contact with water while working under voltage.
- 4 Do not ever touch directly any item that may be under voltage. Use a voltage tester to check first.

# PINCERS 1000V

EGA Master manufactures a wide range of 1000V insulated pliers, box joints, groove joints, cable cutters...**They are designed for the most demanding professionals.**

**1. An extraordinary grip** allows a firm holding a variety of materials with only one hand.

**2. PVC insulation** provides maximum adherence and safety against possible contingencies.

**3. Anti-shock guards and ends.**

**4. Un-erasable laser marking.**
