

TWEEZERS

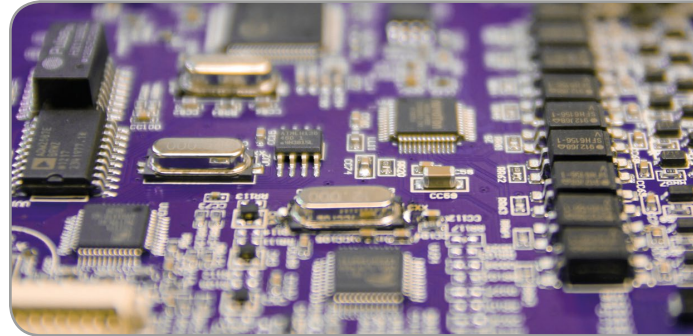

High precision tweezers from EGA Master are specially designed for delicate works, for holding, moving or soldering small SMD components. EGA Master offers several models: thin, flat and self-tighting tips.

1. They provide perfect balance, tip alignment and symmetry for the most precise and exigent works.

2. Made of stainless steel.

For assembling printed circuit board components for prototypes

THIN TIPS TWEEZERS

| | | | | |
|------------|---|---|---|---|
| COD |  L mm |  gr. |  |  |
| 69530 | 115 | 15 | 25 | 1 |

For delicate assembly Works. Smooth grip surface and extremely thin tips.

SELF-TIGHTING TIPS TWEEZERS

| | | | | | |
|---|------------|---|---|---|---|
|  | COD |  L mm |  gr. |  |  |
| | 69532 | 120 | 15 | 25 | 1 |

For holding small components without finger pressure, providing effective hold.

FLAT TIPS TWEEZERS

| | | | | | |
|---|------------|---|---|---|---|
|  | COD |  L mm |  gr. |  |  |
| | 69533 | 110 | 15 | 25 | 1 |

For holding small components. For holding delicate components.

SMD TWEEZERS

| | | | | | |
|---|------------|---|---|---|---|
|  | COD |  L mm |  gr. |  |  |
| | 69531 | 120 | 15 | 25 | 1 |

Angled tips for SMD technology.

SET 4 PCS.

| | | | |
|------------|---|---|---|
| COD |  gr. |  |  |
| 69529 | 70 | 12 | 1 |
