

TOOL BELT

EGA Master manufactures a whole range of ANTI - DROP products and solutions that have been designed to control and prevent object dropping when working at height.

EGA Master anti-drop tool belt has been designed to adapt perfectly to the worker's body, making movements easier and offering him many and varied tool hole adjustments. The rings and pockets of the belt hold the tools while worker is moving, providing safety to workers and equipments against object dropping.

1. Essential for works at height that require using more than one tool

2. 35 anchor points and 11 pockets offer an infinity fixing possibilities.

3. Made in high strength Nylon.
