### CARBON STEEL HACK SAW BLADES

COD	L 12"	TPI		Kg
64433	12"	14	100	1,9
64434		18		
64435		24		
64436		32		

These hack saw blades are used to cut **all kinds of materials of high and medium hardness, with big sections, obtaining straight cuts thanks to its inflexibility.**

### HSS-BIMETAL HACK SAW BLADES

**Unbreakable**

COD	L 12"	TPI		Kg
64437	12"	14	100	1,9
64438		18		
64439		24		
64440		32		

Ideal for **all kinds of cut and material.** They are used also in products of irregular forms, pipes... Very resistant to impacts, and flexible.

### HSS-BIMETAL (COBALT) HACK SAW BLADES

**Unbreakable**

COD	L 12"	TPI		Kg
64441	12"	14	100	1,9
64442		18		
64443		24		
64444		32		

Ideal for **all kinds of cut and material.** Sheets very resistant to impacts and unbreakable, providing a long life to the hack saw.

### HARDENED SPECIAL STEEL HACK SAW BLADES

COD	L 6"	TPI		Blister
63771	6"	24	30	6
