

LONG VALVE SPANNER

EGA Master Non-Sparking Tools are the best alternative for non-sparking application purposes in potentially explosive environments. The long valve wrench is ideal for several potentially explosive or easy combustion atmospheres such as navy or fire brigade use.

1. Consists of an **upper hook and lower jaw** connected to a metal handle. The hook catches on the valve while the lower jaw closes up against the outer circle of the valve. **This gripping manner makes the wrench to turn the valve easily.**

2. Suitable for **valve diameters from 3" up to 20"** and **valve thickness from 36mm up to 60 mm.**

3. The hardness is **283-365 Brinell (Cu-Be)** and **229-291 Brinell (Al-Bron).**

LONG VALVE SPANNER

Cu-Be	COD		Øx	Øy	L mm	gr. 
	Al-Bron					
71432	71435		3-7"	< 36mm	210	400
71433	71436		8-15"	< 48mm	400	900
71434	71437		16-20"	< 60mm	490	1400
71441	71445				800	6400

Cu-Be Beryllium copper

Al-Bron Aluminium bronze
