

NON-SPARKING PICKS

EGA Master non-sparking picks are the perfect solution for underground working and mining since they allow the operator to work safely in those potentially explosive environments.

1. Non-sparking picks have been designed for preparing the ground; for breaking rocky and hard surfaces, for digging up loose stones and materials, for shredding the ground, open trenches etc.

2. The hardness is 283-365 Brinell (Cu-Be) and 229-291 Brinell (Al-Bron).

PICKS

| COD | | L mm | H mm | B mm | Kg. |
|-------|---------|---------|---------|---------|-----|
| Cu-Be | Al-Bron | | | | |
| 72143 | 72147 | 1050 | 360 | 53 | 1,1 |
| 72144 | 72148 | | 385 | 55 | 1,7 |
| 72145 | 72149 | | 410 | 56 | 2,0 |
| 72146 | 72150 | | 470 | | 2,5 |

Cu-Be Beryllium Copper

Al-Bron Aluminium Bronze
