

NON-SPARKING SWEDISH PIPE WRENCHES

EGA Master Non-Sparking Tools are the best alternative for non-sparking application purposes in potentially explosive environments.

EGA Master Non-sparking swedish pipe wrenches are ideal for maintenance in areas at risk of explosion such as in the navy, mining, fire applications, chemical industry, petrochemical...

1. Thanks to its exterior design, they are **perfect for use in places with difficult access.**

2. The **jaws design and the teeth orientation** provide **an ideal grip** of the pipe.

3. Soft foam coated handles in **90° models**, providing a **great and comfortable use.**

4. With a hardness of **311-408 Brinell (Cu-Be)** and **241-311 Brinell (Al-Bron).**

SWEDISH PIPE WRENCH 45°

COD.	MAT.	COD.	MAT.	CAP. (inch)	L (mm)	Kg
70129	Cu-Be	71466	Al-Bron	1.1/2	420	1,4
