

PORTABLE THREADING MACHINE MASTERMATIC 2 PRO

Mastermatic 2 PRO Portable Threading Machine is **ideal piping maintenance in industrial environments**. Its compact dimensions allow to work in areas of difficult access in a comfortable way.

CE I 12M

**Portable,
compact and
efficient**

- 1.** Mastermatic 2 PRO can thread pipes up to 2" easy and comfortably.
- 2.** Accurate operation due to the precision machining of the aluminum cover, which makes all the **four dies perfectly concentric**.
- 3.** The head threaders have been specially designed with a greater length in order to get more stable settlement, reducing vibrations and **providing better thread and smoother work**.
- 4.** The total quality is achieved by a **body made in malleable iron and the dies made in special cutting steel hardened to 58-62HRC**.
- 5.** The machine is presented in a **reinforced blow mold case for an easy transportation and better protection**.

MASTERMATIC - 2 PRO

COD.	CAP. (inch)	W	V	
62441	2	1180	220-240 V (50 Hz)	15
62442			110-130 V (60 Hz)	

CE I 12M

FEATURES

THREADING HEADS: Specialty designed and enlarged heads providing more precise dies setting for smoother and better threading.

FEATURES

The threading oil has high cooling and lubricant properties, always use it in order to get best quality threads and to extend the life of dies and machine.

IMPORTANT: Never use liquid coolants or other water based products. **Only threading cutting oil should be used.**
