

RADIAL PRESS FITTING MACHINE PRESSMATIC

Ega Master CCA Pressmatic portable pressfitting machine is small, light and compact. Utilising an automatic reverse system to ensure fast and secure pressing. The operation of the pressing tongs is automatic with a capacity up to Ø76mm. **Designed for pipe pressing joints and compatible with all common pressfit systems.**

**For
Ø10mm
up to
Ø76mm
(108)**

CE*G12

1. The revolving press jaw carrying system enables jobs in difficult places, in a comfortable way.

2. The press jaw carrying system as well as the automatic reverse system make it extremely quick and safe, saving time and making the job more efficient.

3. The 12V, 2.0 Ah battery provides long autonomy in places without electricity. An optional accessory also provides an electric plug connection where electricity is available.

4. Due to its ergonomic housing design and optimum weight distribution, it is easily operated by one hand.

5. The universal rechargeable battery is monitored electronically to provide protection against total discharge.

6. Electro-hydraulic drive with planetary gears produce enormous pressing force and thrust for perfect, fast and easy press fitting everytime.

*12 Months of warranty.

RADIAL PRESS FITTING TONGUES

1. EGA Master pressing jaws are manufactured in special forging steel, being specially hardened. These features provide them with maximum working safety.

2. Pressing contours are specifically designed for each pressing fitting system. They have been **machined with high precision CNC machines**, having much lower tolerances than microfusion, granting in this way maximum pressing reliability with any press fitting system.
