

# MAGNETIC SCREWHOLDER

EGA Master's magnetic screwholder makes it easier to tighten fasteners in small spaces and those that are difficult to reach. It is suitable for use with screwdrivers and socket bits, and it allows fasteners to be picked up magnetically. It is a practical, light and useful tool.

 **+2kg of force!**

**1.** Thanks to its **powerful neodymium magnet**, the screwholder provides an excellent grip to the fastener.

**2.** To work with **ferrous screws**: Insert the screwdriver blade into the screwholder with the magnet closest to the fastener.

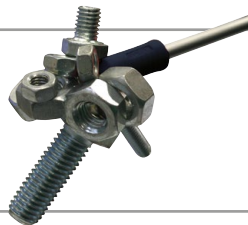

**3.** To work with **stainless steel screws**: Turn the screwholder and use the rubber end of the screwholder to grip the screw head.

**4.** The code **66049** is suitable for **50mm length bits** for which it has been adapted for.

**5.** Practical and multipurpose, it allows us to pick up fasteners magnetically, hold nails, nuts,..etc.

**6.** Its ergonomic design makes tightening easier and its thermoplastic rubber body protects the surfaces.
