

WORK BENCHES

EGA MASTER Work Benches provide the ideal solution for industrial maintenance. Is designed for the most demanding use.

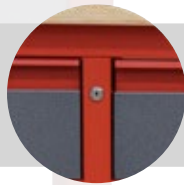

1. The drawers with ball bearing slides provide **maximum versatility** for the arrangement of the items to be stored.

2. Equipped with **holes** to place the different tools.

3. Provides **extra resistance** for tough applications and longer durability.

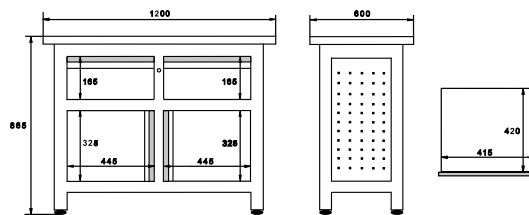

4. **Centralized lock** avoids undesired opening and assures maximum anti-theft security.

5. The **thickness** of the workboard is 38mm and the sheet thickness is 0,7mm in order to provide more resistance.
