

TOOL BAGS

EGA Master tool bags are the ideal item for professionals as they allow users to transport work equipment easily and comfortably.

1. Large opening, quick access inside the bag.

2. Manufactured in double-layer heavy duty nylon.

3. Contain multiple internal and external compartments for better organization of tools.

4. Side handles for easy carrying.

5. Include an adjustable shoulder strap suited for carrying heavy loads.

6. Reinforced base for maximum safety and durability.

7. Models 50960 and 50961 with stainless steel bar for easy transport and comfortable grip.

8. Model 50962 features wheels and an extendable handle to facilitate carrying heavy loads on difficult terrain.
